Key Features of the Etere News Agency and RSS Automatic Ingest Unlimited Licence

- **Broad Format Compatibility:** The system supports all standard agency formats, including IPTC and NewsML, ensuring seamless integration and processing of diverse wire sources.
- **Unlimited Archival:** Powered by the Etere database, Nunzio provides virtually limitless storage capacity for wires, preserving valuable content over extended periods and enabling efficient retrieval at any time.
- **Multi-Language Proficiency:** Supports simultaneous handling of wires in multiple languages, making it ideal for global and multilingual news operations.

This robust wire management system positions Nunzio Newsroom as an indispensable tool for organizing, storing, and accessing essential news content, streamlining workflows, and empowering teams to deliver timely, comprehensive reporting.
